### Democratic Legislature Settles Down to Hard Work.

### SOME BILLS INTRODUCED

**Populist Member Admits that He Has No Claim to Seat—Death of Mr. Capehart—New Deaf and Dumb Institution—To Cut off Fees—Colonel Jim Young's Name on Corner Stone.**

Raleigh, N. C., January 7.—The Legislature has quickly settled down to business. Never was there less delay or trouble in regard to the election or appointment of officers. The important measures begin to appear early. It is very rare for these to appear until later. If it is possible, the Legislature will adjourn before the end of sixty days, which are the limit of the session—that is, the time for which the \$4 a day pay is allowed.

The election contest of J. E. W. Sugg (Democrat) against Mitchell (Populist), for the seat in the House from Greene, was quickly disposed of by the committee. Mitchell admitted that he had no title to the seat, and the vote to seat Sugg was, therefore, unanimous.

Mention has been made of the fact that Isaac E. Smith, negro member of the House from Craven, voted for the Democratic nominees for Speaker, Clerk, etc. Another negro member informs the Democrats that he expects to vote with them on most questions. It is practically certain that this is the last session of the North Carolina Legislature in which the negro will appear as a law-maker. There are only five in this Legislature. Most of the Republican or Populist members are from the West or Piedmont sections. Only six eastern counties are represented by them.

It is said that Senator R. R. Glenn will be the chairman of the Senate Judiciary Committee, and Lee S. Overman or W. R. Allen of that of the House.

There may be a fight among the fusion Board of Penitentiary Directors over Superintendent Day's appointment of Democrats, but it is all child's play, for this Legislature will soon oust the fusion Board. Its days are now numbered.

Mr. B. A. Capehart died Friday night at 11:40 o'clock at his residence, on North Wilmington street, as a result of the stroke of paralysis which he received Wednesday afternoon. The news will be heard with deep regret by his many friends throughout the State, who esteemed him highly for his many admirable qualities. He was in the 66th year of his age. Mr. Capehart came to this city from Kittrell, his native place, about a year ago, and erected one of the handsomest residences in the city, where he resided at his death. He has been twice married and has several children survive him. There is much sympathy for the bereaved ones in this sudden and lamentable death.

### NEW DEAF AND DUMB ASYLUM.

In an interview with Mr. E. McK. Goodwin, superintendent of the Deaf and Dumb Institution at Morganton, he stated that there were now 199 pupils in that institution and that there are 80 applications for admittance on file. Besides these applicants he has the names of 100 more who should be admitted. The school building is being rapidly completed and will be ready for occupancy by April 1st. This will then give the institution a capacity to accommodate 300 pupils. This new building will contain twenty-seven rooms and Superintendent Goodwin says that the institution is in good shape and that there is a corps of eighteen teachers employed.

### TO CUT OFF FEES.

In the Senate to-day a bill passed requiring all fees and other moneys from insurance companies to be paid directly into the Treasury, the purpose being to take all fees from the Populist Secretary of State. He has derived \$3,000 annually from this source. A bill passed providing for the removal of the names of James H. Young, colored, from the corner-stone of the institution for white blind here. He is Governor Russell's appointee as colonel of the Third North Carolina Regiment, and was until then a trustee of the blind institution. A bill was introduced to place permanently in the hands of the whites the government of Craven county, which has a large negro majority.

### SOME NEW BILLS.

The session of the House has already been marked by the introduction of many bills. Of these the chief are to forbid employment of convicts on State farms; to abolish the State Board of Tax Equalization; to abolish the Bureau of Labor Statistics; to require white committeemen for white schools, and negro committeemen for negro schools. The most important bill which will come up during the session was introduced by Francis Winston, who, during the last campaign, was president of the white government unions in North Carolina. The bill provides for a constitutional amendment, to be voted on at a general election in May, 1900, the time for holding State elections being changed to that date. It is based on the Louisiana Constitution, with a change of verbiage to suit North Carolina county and township government. In addition to the educational and property qualifications and the clause admitting to registration persons, their sons, and grandsons, who could have voted in any State prior to 1867, it also admits to registration all persons who served in the United States army prior to January 1, 1867, as well as their sons and grandsons.

### TO-DAY'S LEGISLATION.

Committees selected by the Democratic caucus were confirmed by the Senate to-day, thus depriving Lieutenant Governor Reynolds, Republican, of appointing committees.

Mrs. Margaret Shipp, widow of Lieutenant Shipp, killed at Santiago, was unanimously elected Assistant Enrolling Clerk.

Resolutions were introduced in the House declaring that the people of North Carolina condemn the Republic officials for sending negroes to pay off the Second Regiment; asking the Governor for papers and evidence in the removal of the Wilsons Railroad Commissioners; and to provide a special committee to investigate the payment of moneys from the State Treasury without authority of law.

Bills were introduced to repeal the

license tax on lawyers, physicians and dentists, and to repeal the law requiring bankers and others to file oaths with the State Auditor.

The bill to make the golden rod the State flower was finally tabled.

Yesterday a family moved here from Colorado and took all their belongings with them as they strolled through the streets. They entered several residences of our city to beg for a place to stay, but owing to the number—five in all—they were not accommodated up to a late hour. Each had a bundle. The most laughable part was the smallest, a boy about 4 years old, carrying a double barrel gun on his shoulder, walking with as much dignity as though he had just arrived from some one of Spain's late possessions.

### AIDED BY MRS. PINKHAM.

Mrs. W. E. Paxton, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one.

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

Mrs. W. E. Paxton, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.
